

Master-Clip Thermo & Insulating Hoses

Multi-layered hose combinations with specially adapted insulated hoses

Construction

Material

- inner and outer hose lining: standard hose from Master-Clip range
- insulation: asbestos-free insulation material

Applications

- Air-conditioning and ventilation systems
- Heat and cold protection
- Machine manufacturing
- Automotive manufacturing

Properties

- low heat radiation
- depending on the materials applied
- good structure-borne noise insulation
- flexible

Temperature Range

- depending on materials used

Available on request

- Order-specific production in sizes from DN 38 -DN 900 in lengths up to approx. 5m, insulation thickness from 20mm.
