

Thermo & Insulating Hoses

Multi-layer hose combinations with individually adapted insulation layers

Product Details

Construction / Material

- Type of construction: Special hose
- Design of the helix: metal band, formed as a clamping profile
- Material of the helix: Steel strip, VA steel 1.4512
- Design of the external spiral: designed as an additional protective profile
- Design of inner and outer hose: Insulation made from asbestos-free insulating materials, made from a standard hose based on the Masterflex product portfolio

Properties

Operating Temperature

- Temperature Range: -

Delivery Information

- Delivery, type of production: Order-related production, Production lengths up to approx. 5 m, Nominal widths from DN 38 to DN 900, Insulation thicknesses from 20 mm

Application Areas

- Areas of application: Plant & Mechanical Engineering

Customizing Options

Delivery Variants

Available in other lengths, other nominal diameters, with customer-specific customer-specific imprint.
